 AWS CCP

 Google ACE

 Security

 DevOps

PROFESSIONAL SUMMARY

Cloud engineering fresher with hands-on AWS and Google Cloud experience across IAM, VPC, Route 53, Cloud DNS, HA VPN, database migration, load balancing, Docker, Kubernetes, Linux, Terraform, and security-aware infrastructure. Strong cybersecurity engineering foundation with backend API experience in Python, FastAPI, REST APIs, secure authentication, and automation.

CORE TECHNOLOGY STACK

 Google Cloud	 AWS	 Docker	 Kubernetes
 Terraform	 Linux	 Git	 Python
 Java	 PostgreSQL	 FastAPI	 Postman

PROFESSIONAL EXPERIENCE

 **Cloud Engineer Intern**

Cloud Ambassadors, Google Cloud Partner | Jan 2026 - Present

GCP + GKE

- Provisioned Compute Engine, Cloud Storage, IAM roles, VPC networks, firewall rules, and secure access policies.
- Supported AWS and GCP tasks across VPC, IAM, DNS, load balancing, VPN, migration workflows, and troubleshooting.
- Configured Cloud DNS and Route 53 records, HTTPS load balancer validation, and SSL/TLS certificate workflows.
- Practiced Docker, Kubernetes/GKE, Artifact Registry, Cloud Run, Linux, Git, Bash, and Terraform fundamentals.

 **Backend Developer**

Chella Corporations | Jul 2025 - Dec 2025

APIs + Linux

- Developed REST APIs using Python and FastAPI for an AI-driven medical platform.
- Worked with secure authentication, service integration, database integration, debugging, and API automation.
- Deployed and maintained backend services on Linux servers, strengthening cloud operations readiness.

 **AI Application Developer Intern**

Infosys Springboard | Sep 2025 - Nov 2025

RAG System

- Built a RAG-based compliance checker system for document retrieval, analysis, scoring, and automated evaluation.
- Integrated GPT-based workflows to improve compliance review efficiency by 70%.

PROJECT HIGHLIGHTS

 AWS Route 53 to Google Cloud DNS Migration Zero-downtime domain migration with DNS inventory, Cloud DNS zone setup, record replication, NS cutover, validation, and rollback.	 Private AWS RDS PostgreSQL to GCP Cloud SQL Migration Private PostgreSQL migration using AWS VPC/VGW, GCP HA VPN, IPsec, BGP, Private Services Access, and DMS.
 Private Cloud Storage Behind Load Balancer GCP private Cloud Storage access pattern using global external application load balancer and backend bucket validation.	 AWS to GCP Site-to-Site VPN Hybrid cloud VPN documentation covering secure tunnel configuration, routing, validation, and connectivity checks.
 Forenscope - IoT Digital Evidence Collector IoT-driven evidence collection concept aligned to cybersecurity investigation, integrity, and secure handling workflows.	

TECHNICAL SKILLS

Cloud Platforms	AWS: IAM, EC2, S3, VPC, Route 53, RDS, ECR, ECS, CodePipeline. Google Cloud: IAM, Compute Engine, VPC, Cloud DNS, Cloud SQL, Cloud Storage, Cloud Run, GKE, Artifact Registry.
Security and Networking	Least-privilege IAM, security groups, firewall rules, subnetting, routing, VPN, BGP, DNS, SSL/TLS, monitoring basics, Linux hardening fundamentals.
DevOps and Automation	Docker, Kubernetes, Terraform fundamentals, GitHub Actions, AWS CodePipeline, Bash, Linux operations, Postman, CI/CD deployment practice.
Programming and Backend	Python, FastAPI, Java, REST APIs, secure authentication, database integration, API debugging, backend automation, PostgreSQL.

CERTIFICATIONS AND LEARNING

 AWS Certified Cloud Practitioner AWS core services, security, pricing, and support fundamentals.	 Google Associate Cloud Engineer Google Cloud deployment, IAM, networking, and operations foundation.
 Google Cloud Digital Leader Learning Path Cloud transformation, Google Cloud products, data, AI, security, and value.	 Google Professional Cloud Architect Learning Path Architecture, infrastructure design, security, reliability, operations, and migration planning.
 EC-Council Network Defense Essentials Network defense, security fundamentals, and threat-aware engineering basics.	 Cisco Networking Basics Networking concepts that support cloud, Linux, backend, and DevOps workflows.
 Infosys AI Primer AI workflow fundamentals used in compliance automation and backend project work.	

EDUCATION

B.E. Cybersecurity Engineering J.J. College of Engineering and Technology Anna University 2022 - 2026 CGPA: 9.0/10 Coursework aligned to computer networks, operating systems, cryptography, distributed systems, cloud infrastructure, and security.
--
